

A2L/A2/A3 refrigerant use with Testo products

Titisee-Neustadt, 2023/10/26

Product: **testo 570s**

Refrigerants classified as Class 2L or higher according to the ISO 817 standard (also known as "A2L/A2/A3 refrigerants") have a high flammability. Appropriate safety measures must be taken when handling these refrigerants.

The above-mentioned product(s) have undergone a thorough internal safety assessment, additional constructive safety measures have been implemented. All performed safety measures have been reviewed and confirmed by an external laboratory, Eurofins E&E CML Limited, with the report R16307A-00.

The product(s) can be used provided that the international and national laws, standards, guidelines and safety regulations for refrigeration systems as well as the regulations of the equipment manufacturers are observed. It is essential to follow the instructions of the operating manual for the product(s) and observe the warnings.
